#### QUICK-START GUIDE

# **PRODUCT OVERVIEW**

The Ceiling Microphone Array (CMA) Analog-X is the newest and most advanced tri-element CMA addition to our ceiling mic lineup for conferencing and sound reinforcement applications. Flexible and easy to use, the Analog-X is 100% RF immune, optimized for speech-intelligibility, and can daisy-chain for easy installation.

# **PARTS**

The Analog-X CMA comes with the following parts:

- Mic Array
- Junction Box
- Interface Box & Power Supply

The mic array is made up of 3 components:

# **TOOLS REQUIRED**

A drill with a 7/8" saw bit

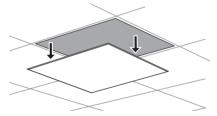

## **CEILING MIC ARRAY ANALOG-X**

# MICROPHONE ARRAY PLACEMENT

Determine placement of an array by its pickup pattern and room characteristics. Adjusting drop-down height from 0 to 7 ft. determines how close an array is to users, and how far its pickup pattern extends.

### INSTALLATION

1. Drop the ceiling tile where you are installing the microphone array.

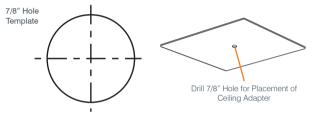

- Place the Junction Box in the space above the suspended ceiling where you want to place the microphone array.
- If mounting, secure screws. You must supply your own screws appropriate to your mounting structure.

**NOTE:** Mount ears are pre-installed on the Junction Box, with holes sized for M3 or #6 size screws.

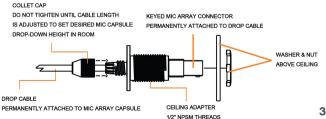

**IMPORTANT:** Installer is responsible for making sure structure can support the weight of all equipment. Reinforce ceiling structure as necessary.

#### QUICK-START GUIDE

- 4. The holes in the mounts may also be used to attach a Ø3mm (Ø1/8") safety cable. You must supply your own safety cable.
- Run the CAT5e/6 cable from the Interface Box location to the Junction Box through the open ceiling to conceal the cable. You must supply your own CAT5e/6 cable.
- 6. Drill a 7/8" hole in the removed ceiling tile for mic cable pass-through.

- 7. Place the ceiling adapter in the hole, and pass the drop cable through.
- 8. Tighten the washer snugly into place against the ceiling adapter.
- 9. Adjust the length of drop-down for the cable as needed.
- 10. Slide the collet cap up to the ceiling adapter, and tighten snugly.

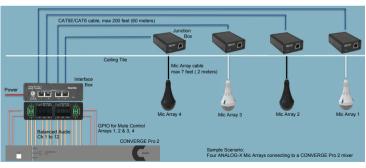

# **CEILING MIC ARRAY ANALOG-X**

- 11. Connect the Analog-X cable to the Junction Box.
- 12. Put the tile back into place.

 Connect Euroblock Phoenix connectors from the Interface Box to the DSP mixer.

#### QUICK-START GUIDE

#### **COMPLIANCE**

#### CE

This product complies with the requirements of the European Community Directive

#### PI FNUM

This product meets the UL 2043 plenum-rating standard. This certifies that the product has adequate fire resistance and low smoke-emission characteristics to be mounted and operated in a building's environmental air spaces, such as above suspended ceilings in an office environment.
