ClearOne®

CHAT® 60-U | USB with Call Control
Personal Speakerphone for Skype™

Quick Start Guide

TABLE OF CONTENTS

Configuring the CHAT Device

To use the Call Control features of the CHAT 60-U for Skype, please visit www.clearone.com/skype to download and install the software.

If the CHAT device requires a firmware update, follow the instructions in the specific CHAT User's Manual to setup and configure the CHAT device.

The latest version of the software and CHAT User's Manual can be found on the ClearOne Website at:

http://www.clearone.com/support/downloads.php?content=main

Scroll down the page to the CHAT 60-U/160 section and click the relevant links.

Follow the instructions in the manual to install and configure the CHAT device.

Connecting to a Computer

The following describes how to connect the CHAT 60-U to a PC.

Using the CHAT 60-U with Skype

With your CHAT device plugged in to your computer:

1. Launch Skype from your Start - Programs tool bar (or desktop shortcut)
2. Log in to Skype (or create a new account)
3. A dialog box at the top of the page will alert you that a new audio device was found and will list your CHAT unit. Select OK.
4. Test your device with the Echo / Sound Test Service.
5. Enjoy!

Important! CHAT devices are designed to work on flat, stable surfaces with no obstructions. For best results, do not hold or move the device while in use.

NOTE: When you plug a CHAT speakerphone into your PC or laptop it will become the default audio device for Windows. More information can be found on the Microsoft Website:
